Professional Summary

Artificial Intelligence and Data Science graduate with six months of Data Science training and hands-on experience in Python, SQL, Power BI, Machine Learning, Artificial Intelligence, Deep Learning, and web development. Experienced in developing data-driven, AI-based, and full-stack applications, including adaptive learning, student analytics, and e-commerce systems. Strong foundation in data analysis, visualization, databases, and application development with an interest in solving real-world technical and analytical problems.

Technical Skills

Programming & Databases: Python, SQL, Java, MongoDB, SQLite

Data Analytics & Visualization: Power BI, Microsoft Excel, Data Analysis, Data Visualization

AI & Machine Learning: Machine Learning, Artificial Intelligence, Deep Learning, Generative AI

Web Development: HTML, CSS, JavaScript, TypeScript, React, Node.js, Express.js, FastAPI

Tools & Platforms: Git, GitHub, VS Code

Training & Experience

Data Science Trainee

Besant Technologies, Velachery

Jan 2026 – Jul 2026

Chennai, Tamil Nadu

- Completed six months of Data Science training with practical exposure to Python, SQL, Microsoft Excel, Power BI, Machine Learning, Artificial Intelligence, and Deep Learning.
- Worked with data preparation, analysis, visualization, database querying, and analytical problem solving using Python and SQL.
- Used Power BI and Microsoft Excel to analyze structured data and present findings through reports and visualizations.

Software Development Intern

VaultofCodes

Jul 2025 – Sep 2025

Remote

- Completed a two-month internship program covering AI & Prompt Engineering, Java Programming, Python Programming, and Web Development.
- Applied Python and Java programming fundamentals, web development concepts, and Artificial Intelligence techniques through practical tasks and project-based learning.

Projects

Renu's Collection – Full-Stack Fashion & Jewelry E-Commerce Platform

Live Project

- Developed a responsive full-stack e-commerce platform for fashion and jewelry with customer-facing and administrative functionality.
- Implemented product and category management, inventory, wishlist, shopping cart, customization, checkout, order management, JWT authentication, Razorpay, and Cash on Delivery.
- Built the application using React, TypeScript, Vite, Node.js, Express.js, and MongoDB Atlas and deployed it using Render.

Python Edition – Adaptive AI-Powered Interactive Learning Assistant

GitHub

- Developed an interactive Python learning platform that adapts learning experiences according to learner performance.
- Implemented learner ability estimation, mastery tracking, placement assessment, quizzes, coding challenges, analytics, and an AI-assisted interactive coding environment.
- Built the platform using React, TypeScript, Node.js, Express.js, MongoDB, and JWT-based authentication.

SASC – Smart Analysis of Students Curriculum

- Developed a student curriculum analysis system for monitoring academic performance and identifying students requiring attention.
- Implemented role-based access and analytical dashboards displaying student performance trends, visualizations, and academic risk indicators.
- Built the backend using FastAPI, SQLite, and JWT authentication with a React-based frontend for interactive analytics.

Education

B.Tech – Artificial Intelligence and Data Science

Grace College of Engineering, Thoothukudi

2022 – 2026

Anna University

Certifications

- Data Fundamentals** – IBM SkillsBuild, Aug 2026
- Artificial Intelligence Fundamentals** – IBM SkillsBuild, Jan 2026
- Explore Emerging Tech** – IBM SkillsBuild, Jul 2025

- **AWS Educate Machine Learning Foundations – Training Badge** – Amazon Web Services, Jul 2025
- **MongoDB Basics for Students** – MongoDB, Aug 2025
